

**Change Notification**  
***Production Site Change***

**February 2015**

Dear Valued Customer:

This letter serves as notification that the production of the following SKUs will be moved from the US to Mexico:

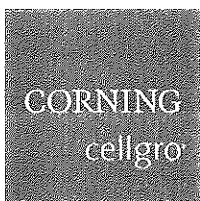

91-200-02, 91-200-36, 91-200-43, 91-200-45, 91-200-47, 91-300-15, 91-300-20, 91-300-25, 91-300-30, 91-300-80

The COAs and labels for these products will now include the following text: "Made in Mexico".

The facility in Mexico has undergone full validation to ensure the product produced there will replicate that made in the US site. All raw materials used will meet the established standard compliance specification. After review of validation and additional analysis it was determined that the assembly/manufacturing process is not affected or changed in any way by the location change. The fit, form, and function of the products are not impacted by location change.

These Mediatech products meet the consistency and quality levels that have previously been validated in your labs. Mediatech and Corning are committed to providing our customers with consistently high quality products, and we are making these changes in support of this commitment.

If you have any questions regarding this change, please contact Mediatech Quality Technical Services ([MTTechserv@corning.com](mailto:MTTechserv@corning.com) or (800) CELLGRO (235-5476)).
