

CHANGE NOTIFICATION LETTER

Tamper-evident Seal Color Change for Bottled Product

August, 2015

The tamper-evident seals for bottled product will change to a solid orange color with no print for all standard products of the following bottle sizes:

Bottle Suffix	Size
CI	100 mL
CQ	250 mL
CV	500 mL
CM	1 L

Changing to a solid orange seal without printing will better align the look of the media products with other CLS products such as flasks and glass bottles which have orange caps.

The change is to the appearance only. The color and print will be the only changes to the seal. The seal material and make will remain the same.

The change will go into effect immediately and all newly manufactured lots will use orange seals.

These Mediatech products meet the consistency and quality levels that have previously been validated in your labs. Mediatech and Corning are committed to providing our customers with consistently high quality products, and we are making these changes in support of this commitment.

If you have any questions regarding this change, please contact Corning Scientific Support (Scientificsupport@corning.com or (800) CELLGRO (235-5476)).
